

Designed to amplify interactions, personalize recommendations, strategically automate business queries, Speridian's high-performing, resilient, contextual mission critical AI Business Bot 'S3PO' takes on a user-centric approach and processes highly nuanced utterances to deliver unrivalled CX and EX.

S3PO Personality

- | | | |
|---|----------------------------|---------------------------|
| ▶ Conversational AI | ▶ Customer Success Advisor | ▶ Sales Rep |
| ▶ Knowledge Base | ▶ Auto-Demand Generation | ▶ Multilingual Capability |
| ▶ Built-in Analytics | ▶ Operations Collaborator | ▶ Case Management |
| ▶ Instant Messaging (Live Chat Support) | ▶ HR Bot | ▶ Security |

Significant ROI with Minimal Effort

- Engaged customers purchase 80% more frequently and spend 65% more in every purchase.
- Drive high-quality leads with automation and achieve higher sales conversions.
- Improve customer service/support, cut costs and improve CX at the same time.
- 80% of organizations experienced an increase in employee productivity after implementing AI powered chatbots.
- 65% of employees are relieved to get the help they need, when they need it – from a chatbot or a human.

Digital workplace leaders will proactively implement S3PO to gain competitive edge!
